Our Style

We are candid in our approach. As a team, we create banter to help relax the bridal party and your families, making you at ease in front of the camera. We gain an understanding of your day and what is important to you during a couple of meetings with yourselves before the day. On the day, we let it flow. However, we will guide you with some posing and prompting to help you feel natural and be yourselves in front of the camera.

Working as a team with both male and female photographers (particularly a husband and wife), means we view the day from varying perspectives and can therefore capture different highlights. Justin generally captures the big picture of the day, plus keeps everyone laughing, while Jen is more focused on the little details and knowing when to relax a nervous bride!

The best way to get a feel for our style is to view the highlights of recent weddings on our blog: [http://www.jrobertsphotography.com.au/blog/label/Wedding Photography](http://www.jrobertsphotography.com.au/blog/label/Wedding%20Photography)

Frequently Asked Questions

1. **Do we get the high resolution photos on disc?** Absolutely! You'll receive all your photos in high resolution to print and share whenever you wish.
2. **How long will it take to receive my photographs?** Generally, you will receive your web gallery, discs and 6 x 4" prints within 3 months of your wedding day.
3. **How do we book you for our wedding?** We arrange a meeting with yourselves (either in person or via phone), as it's really important that you connect with us and are relaxed, so as to get the best possible photos of your wedding day. We then require a \$500 deposit and a signed copy of our Service Agreement (found at the back of this document).
4. **Will I meet with photographers who will capture my day?** Certainly. Both of us will be at the meetings, so that you know exactly who you will be meeting on the day.
5. **How many photos do you take?** Every wedding is different, but with both photographers shooting all day, there will be many photos for you to choose from. We do edit these down slightly for your ease of viewing, but you'll be pleased with the wide variety you receive.
6. **Do we need to include you on the guests list to be fed?** Meals are required if we are still photographing when your main course is served. It's a little tricky to keep our energy levels up all day if we are hungry...
7. **Do we have to order prints through you?** No...not at all. You are welcome to use your disc of images to print with your favourite printer. We do include some prints in our packages, so you can see our professional quality printing. We do recommend that if you wish to display photos on your walls, to consider our offering. The quality is exceptional and the archival paper will outlast standard prints.
8. **Will we receive only colour photographs?** No, we convert the photos we think might look good into Black & White or Sepia, plus you receive the colour images as well. Also, because the photos are digital, you can choose to print any of them in B&W, even if we haven't converted them for you.
